ABSTRACT

Official collaborations in science and technology, especially on Nanotechnology, have been recently initiated between Iran ,China and Russia. Many effective programs have been launched in this regard. This event aims to initiate and promote scientific collaboration between Iran ,China and Russia scientists. We propose to organize and run this event by the consortium of 5 top Iranian Universities of Technology (UT5), in order to facilitate direct contact of the leading scientists of these universities with their Chinese and Russia counterpart.

- Review and exchange of the status of Nano-Micro Science and Technology in Iran ,China and Russia.
- Open horizon for academic exchange between top universities and institutes in Nano-Micro Science and Technology in Iran ,China and Russia.
- Review and extension of Iran-China cooperation in Nano-Micro Science and Technology
- Provide a platform for the knowledge-based companies in the field of Nano-Micro Science and Technology to introduce themselves to the funding agencies and venture capitals of two countries.

IRAN-CHINA-RUSSIA

Nano-Micro ICR2025

Nano-Micro Science and Technology

Virtual Symposium

Date: 25th Feb., 2025

08:30 Moscow / 09:00 Tehran / 13:30 Beijing

Topics:

- ✓ Nanomaterials,
- ✓ Nanobiotechnology and Nanomedicine,
- ✓ Nanoelectronics and Microelectronics,
- ✓ Nanofabrication and Nanocharacterization

Keynote Speakers:

- Prof. Guangjun Nie, China
- Prof. Yue-E Miao, China
- Prof. Igor Kudinov, Russia
- Prof. Evgeny Parfenov, Russia
- Prof. Maisam Jalaly, Iran
- Prof. Masoud Atapour, Iran
- Prof. Albert G. Nasibulin, Russia
- Prof. Hua Li, China
- to be completed
